### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Verna (RN: 33,287) on 4/23/04.

The application has been amended as follows:

#### ***IN THE CLAIMS:***

Claim 15, line 4: after "eucaryotic promoter," insert --- a multiple cloning site --- ;

Line 6: change "and in eukaryotic cell" to --- and in a eucaryotic cell; --- ;

Line 7: change "each vector" to --- said vectors ---.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose or suggest methods which use a dual vector (e.g. dual eucaryotic/prokaryotic promoter and multiple cloning site) to enable an initial procaryotic screen and a subsequent eucaryotic screen to obtain proteins comprising cDNA signal encoding sequences and libraries thereof with the advantages thereof (e.g. highly efficient, less time constrains and cheaper screens which use one vector construct)

Art Unit: 1639

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
